Final-year Informatics Engineering student at Syarif Hidayatullah State Islamic University Jakarta with hands-on experience in data science and full-stack web development. Proficient in Python, SQL, React, and Laravel, focusing on building practical, scalable, and data-driven applications.

WORK EXPERIENCE

DBS Foundation

Feb - Jul 2026

Data Scientist Cohort (Internship)

- Performed end-to-end data cleaning, preprocessing, and exploratory data analysis (EDA) using Python and spreadsheet tools on complex datasets.
- Prepared structured analytical reports and compelling data visualizations to effectively communicate actionable findings and trends.
- Collaborated with a multidisciplinary team to complete a comprehensive capstone project based on real-world industry case studies.

iLC Learning Center

Feb - Jun 2025

Junior Data Scientist (Internship)

- Managed data collection workflows and executed Exploratory Data Analysis (EDA) utilizing Python to extract key operational insights.
- Designed and deployed interactive dashboards in Tableau and Data Studio to visualize operational metrics and strategic performance.
- Implemented classification (Decision Tree, k-NN) and clustering (k-Means) machine learning workflows using Orange Data Mining.

VINIX7

Feb - May 2025

Junior Cybersecurity Engineer (Internship)

- Executed Vulnerability Assessment and Penetration Testing (VAPT) using Nessus, OpenVAS, and Metasploit to identify and remediate security risks.
- Analyzed network traffic using Wireshark and evaluated wireless security protocols through Aircrack-ng to ensure network resilience.
- Configured Wazuh SIEM for continuous threat monitoring and supported digital forensic investigations using Autopsy and FTK Imager.

EDUCATION

Syarif Hidayatullah State Islamic University Jakarta

Sep 2023 - Present

Informatics Engineering

- GPA 3.77 of 4.00

ORGANIZATIONAL EXPERIENCE

Dapur Seni

Dec 2023 - Jan 2025

Management

- Coordinated operational workflows and cross-divisional communication across organizational exhibitions and cultural events.
- Managed logistics procurement, equipment inventory, and operational budget allocation for art events.
- Oversee financial administration, fund distribution, and transparent accountability reporting in the role of Event Treasurer.

CERTIFICATION

Alibaba Cloud Certified Associate System Operator

Alibaba Cloud

Apr 2025

Basics of Network Layer Protocols Micro Certification

Huawei

Dec 2024

SKILLS

- **Languages:** Indonesian (Native), English (Intermediate)
- **Programming & Technologies:** Python, JavaScript, TypeScript, PHP, React, Next.js, Laravel, MySQL, PostgreSQL
- **Soft skills:** Problem-Solving, Teamwork, Time Management, Event Management, Creative Thinking
- **Software & Tools:** Git, Postman, Google Colab, Figma, Looker Studio, Canva, Microsoft Office (Excel, Word, PowerPoint), Google Workspace
- **Interests:** Data Science, Artificial Intelligence, Computer Vision, Full-Stack Development
